## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

Claims rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limiting phrase “holding/preserving means that best matches the real correlation function generated in from the generating means and judging one of the states regarding the real time-sequence data” is indefinite in scope with respect to the algorithm for best matching the two models.

The limiting phrase “the real time-sequence data having an equilibrium point; the equilibrium point is provided based on value” is vague and indefinite.

The limiting phrase “multiplying the first parameter to a recent change value of the real time-sequence data; and a value of the real time-sequence data after a time  $\Delta t$  is provided based on a value provided by multiplying the second parameter to a difference between a value of the real time-sequence data in a current time  $t$  and the equilibrium point” is vague and indefinite in that identity of the first and second parameters is ambiguous.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action
